

What can you expect to pay for an Out-of-Warranty Repair?

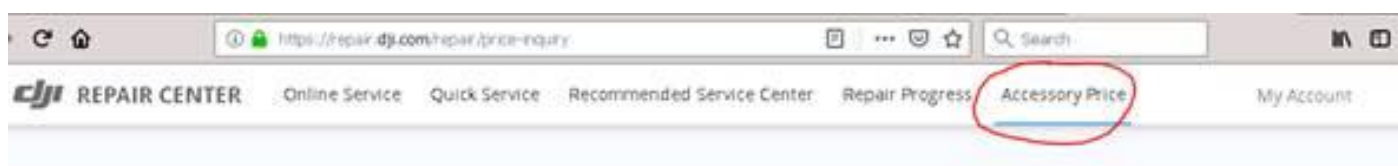

Everybody with a DJI account can log in the Online Repair Request site
www.dji.com > Support > Online repair request

Once on this site you can choose the Tab 'Accessory Price' in the top menu line
This Tab will get you to the Repair Component Price inquiry site (screenshot).
It first shows the prices for DJI repair service.

Then choose your preferred currency – f. ex. EUR and your DJI model and a list of the chosen models spare-part prices in EUR will show up.

NB: The price of the spare-parts plus the DJI service price will be the expected total price excl. VAT

NB those spare-parts are not sold to end-users separately but only charged in case of a repair-service at DJI.

Repair Component Price Inquiry

Component Price Inquiry

EUR Mavic Mavic Pro

Category	Component	Price / EUR
